TIMELINE

EXTRACURRICULAR

2014 - 2015

Faculty Student Council

The FSR (Facultaire Studentenraad) or Faculty Student Council is the official representative of all students on the faculty of Architecture. I was responsible for the MSc education, next to being vice-president. I organized a big campaign together with study union Stylos to warn about the conditions of the renewed law on the architects' title, which enforces a Professional Experience Program. Part of the campaign was a debate with Harm Tilman, Jo Coenen, Henk Döll, Willem Hein Schenk and David Gloster. Later on we also organized a seminar, bringing everyone involved in the new law together.

The Faculty Student Council

Our press release about the architects' title

2011 - 2012

Board of D.B.S.G. Stylos

Together with 5 other students, I was in the 118th board of study association Stylos at the faculty of Architecture and the Built Environment. My responsibilities included attending and organizing meetings with students, teachers and faculty (education) management, and by doing so, representing the students of our faculty. I was also responsible for the study trip to China and several lectures and workshops during the year.

Sideline activities include:

- Wouter Mikmak foundation,
- Designers of the Future lecture series
- BK City Stay advisory board

2011

Study trip Brazil

Study trip committee of study union Stylos

2008

Study trip Peru

Including fundraising for the HoPe foundation

KEYWORDS

Design with attention for detail and technology, good with Adobe Software, AutoCAD, Rhinoceros (and Grasshopper), modeling, communication (incl. social media), teamwork.
